Dear Mr. Theriault

I am writing this letter to comment on EnCana Corporation's Deep Panuke offshore development project and the negative impact on mineral exploration for myself and the entire mining and exploration industry of Nova Scotia the project would have. If EnCana follows the route it stated in the previous application in 2003 there pipeline would pass directly through my offshore and onshore exploration licence which I have held for over thirteen years. The pipeline would destroy my rights and interests taking away any possibility of developing my claims in the area. The district has a history of gold mining dating back to 1868 and I feel should be considered extremely important in the entire regulatory processes. In 2002 I was granted Intervenor status and I feel that EnCana should fully state in clear terms its position regarding Mineral Right holders and what steps it intends to take regarding mitigation or compensation for damages done to mineral right holders in the area. There are many questions that need to be addressed with the proposed pipeline and how it will affect exploration and mining in the province. I am sending a copy of my Exploration Licence and also a page from the (N E B) DECISION (MH-4-98) regarding the same mineral claims. I thank you for your time concerning this matter and should you require any additional information please feel free to call me at any time.

Your sincerely
Kevin Mc Allister

Exploration Licence

This Exploration Licence is hereby issued to Kevin McAllister of Halifax in the Province of Nova Scotia to exercise the right to search and prospect for ALL MINERALS SAVING AND EXCEPTING coal, salt, potash and uranium, and to apply for a mining lease for all or part of the area held under this exploration licence, for a period not exceeding twelve months from the date hereof, within that area of ground situated at or near Dung Cove

in the County of Guysborough as described as follows:

<u>Claims</u>	<u>Tract</u>	<u>Reference Map</u>
GH	31*	11 F 4 D

***PARTIALLY OFFSHORE:**

Please note: Prior to commencement of any work program in the offshore portions of this licence, a work proposal must be submitted and accepted by the Department of Natural Resources.

First Year of Issue.

This Exploration Licence is issued subject to the rights of the owner, occupant or tenant of the land covered by this Licence and to the provisions of the Mineral Resources Act and Regulations, and of any Act or Regulations in amendment thereof, and also subject to any order of the Governor in Council from time to time made.

This licence is duly executed in the name of the Registrar of Mineral and Petroleum Titles this 6th day of September A.D. 19 94 at Halifax in the County of Halifax.

National Energy Board

Reasons for Decision

In the Matter of

Sable Offshore Energy Inc.

Application dated 9 June 1998 for approval of the Plan, Profile and Book of Reference respecting the detailed route of a subsea pipeline from the Thebaud platform to landfall near Goldboro Nova Scotia; and an onshore pipeline from the landfall point to the inlet of the gas processing plant located east of Goldboro, Nova Scotia.

MH-4-98

October 1998

2.8 Board Comments on SOEI's Detailed Route Selection Process

✓ 2.8.1 Consultation

It is regrettable that SOEI did not choose to consult directly and/or meaningfully with the holders of mineral exploration licences during the planning phase of the determination of the detailed route. The establishment of positive working relationships with those parties who hold rights in the land is essential to the ongoing operations of the pipeline. Looking forward in time, it will be necessary to work together with the mineral exploration licence holders, mineral owners, the provincial crown and surface rights owners to ensure that the resource development - both natural gas and other valued resources - can coexist. This coexistence is neither unusual nor impossible. Unfortunately, SOEI may have commenced its relationship with mineral exploration licence holders in a negative fashion. ✓

National Energy Board case regarding the same claims. ✓
